—————§ § §—————

**OUR GREEN PLANTS** are grown so as to give the maximum of results equal or superior to root stock. This is only accomplished by the selection of healthy vigorous roots benched in a moderate heat that will enable us to take stocky base cuttings. Only a reasonable number of cuttings are taken and none used that are spindly. After cuttings are rooted and potted and begin to grow they are moved to cooler quarters and later shifted to larger pots; at this stage small tubers are beginning to form, assuring that clumps will be obtained at digging time; the plants are later hardened off in "outside quarters" so as to withstand shipping and be in condition for planting out.

—————§ § §—————

**- - DAHLIA SEED - -**

IF YOU ARE INTERESTED IN DAHLIA SEEDS, why not buy the best. **ROCKLEIGH FAMOUS CALIFORNIA SEED** WILL GIVE HIGH GERMINATION WITH A LARGE PERCENTAGE DOUBLE FLOWERS WITH GOOD CENTERS. \$5.00 per 100, \$9.00 per 200.

## ROOTED CUTTINGS

WE CAN SUPPLY ROOTED CUTTINGS of the newer varieties at 1-3 less than the cost of plants. We do not, however, recommend them for early shipments as they lack the necessary "hardening off" to withstand the change from inside to outside temperature. Proper facilities are needed and time required to give them the care essential to grow them to worth-while plants.
